

About the app...

With ReaXium School Bus know where the school buses are and get real-time notifications regarding the students' estimated pick up time, drop off time, and their status along the routes.

Stay connected with your child at all times with ReaXium School Bus

Visibility

Track the Bus Location

Track the location of your student's school bus in real-time so you always know when the bus is right around the corner!

Safety

Monitor Your Students

Every time your student boards or exits a bus, you can see the bus information, pickup/dropoff location, and time when the event occurred. Irregular student events will be flagged and the location where they occurred can be consulted.

Peace of mind

Get Notified of Unforeseen Changes

If for any reason, your student's school bus experiences an incident or delay, the application will notify you.

Ensure The Right Bus & Stop

Sometimes, your student may get on the wrong bus by mistake, the ReaXium School Bus system ensures that he or she will be helped by giving them the right bus and route information, as well as redirecting them to where they need to be.

HOW TO GET STARTED?

Once your school district is all set up with ReaXium School Bus, student contacts will receive an invitation email! If you have not received an email, you can request an invitation code through the app by scanning the barcode, entering our website or your school's website.
